

Pre-Excavation Management Course (PEMC)

Practical training to manage underground utility risk before excavation begins

Why this Course Matters

Excavation is a high-risk activity, and effective pre-excavation planning is essential to manage underground utility risks. The PEMC provides the knowledge needed to identify and manage these risks before excavation begins, helping to reduce the risk of utility strikes, injuries, service disruptions and costly project delays.

Course Overview:

The Pre-Excavation Management Course (PEMC) provides practical training for workers, supervisors and project teams involved in excavation and ground disturbance. Participants develop the knowledge and skills to assess underground asset information, plan excavation activities and apply appropriate controls to manage underground utility risk.

7,500+ industry professionals have completed the PEMC.

Who Should Attend?

Civil and excavation contractors, councils and government agencies, utility maintenance teams, plumbers, electricians, landscapers, pool and fencing contractors, farmers and rural property managers, safety leaders, project managers, supervisors and anyone planning or managing excavation.

What Participants Learn:

- Understanding the causes and consequences of utility strikes
- Legal obligations and duty of care before and during excavation
- Risk assessment and implementing reasonably practicable controls to manage excavation risk
- How to request, interpret, and validate asset information, including BYDA plans, and the Look Up and Live app
- Knowledge of locating methods and when to use them
- Applying AS 5488 Quality Levels (QL-D to QL-A) in the field
- The role and competency of Certified Locators

Certificate of Completion

Receive a Certificate of Completion upon successful completion of the course, valid for three years from the date of issue.

Course Information:

Duration:

3.5 hours (webinar) or 5 hours (face-to-face)

Delivery Options:

- Scheduled webinar
- On-demand webinar (self-paced)
- Face-to-face (private group bookings at your workplace or suitable venue)

Pricing:

Webinar: **\$149 + GST per person**

Face-to-face: **Group pricing available on request**

Funding Available:

QLD: Fully funded for eligible Queensland construction workers through Construction Skills Queensland (CSQ).

TAS: Keystone training rebates available for eligible businesses within the Tasmanian building and construction industry. Applications must be made before the course starts.

Eligibility criteria and conditions apply.
